EXCURSION POLICY

Revised 2015

RATIONALE

- Excursions are strongly encouraged as a means of providing students with opportunities to learn from the wider community
- The *School Education Act 1999* requires principals and teachers to ensure the safety of students in their care. Activities conducted off school site involve greater risk and therefore require a higher standard of care. This includes careful planning that address risk factors that may exist for staff and students
- Teachers involved in off-site excursions are entitled to the same conditions of employer support that apply to teachers in the school setting, including worker's compensation and insurance

POLICY

1. An excursion is any student-learning activity conducted outside a school site that is organised and supervised by teacher(s) employed under s235 of the *School Education Act 1999* and approved by the school principal.
2. A water-based excursion is where activities occur in or around water and present a risk to the safety of students. **Reference should be made to the Water-based Excursions Procedures and Guidelines on the Intranet.**
3. All excursions (including water-based excursions) require the approval of the principal. This needs to occur at least four weeks prior to the excursion and submitted on the form 'Application for Excursion' (Appendix A). Each excursion must have a teacher-in-charge.
4. Informed Consent from parents/guardians must be provided before students can participate in an excursion. This includes information on excursion purpose, date(s), activities to be undertaken, duration of activity(s), location of activity(s), student contact arrangements, transport, cost, supervision provided, staff action in case of accident/illness, liability for loss/damage and medical costs, special clothing or other items.
5. Students whose parents do not approve participation in an excursion must be provided with appropriate alternatives at school. This should be negotiated through a Deputy Principal.
6. All teachers participating in an excursion owe a Duty of Care to participating students for the duration of the excursion. The level of supervision is dependent on the age of students, experience and ability of students, student medical conditions or disabilities, supervisor(s) competence/experience, nature of the environment, location of activity and the weather. For water-based excursions the minimum requirement is two supervisors, one of which will be qualified (bronze medallion or equivalent).
7. A Checklist for Excursions (Appendix B), Pricing Worksheet (**see Registrar**) and Student Health Form - if staying overnight and must be taken by teacher-in-charge (Appendix E) must all be completed and returned prior to departing on the excursion.

8. The school must retain all excursion records (including consent from parents and appropriate forms) for a period of seven years.
9. All volunteers (non Department employees) participating in excursions must complete a *Confidential Declaration* indicating their probity with regard to being near students. Volunteers assisting on school camps must undertake a 'Working with Children Check' (applications through Australia Post).
10. If an excursion is not approved by the principal it is regarded as a private excursion and therefore the Department of Education or the school accepts responsibility for teachers or students.
11. The Department of Education provides public liability insurance and workers' compensation insurance cover for all employees on principal approved excursions. This RiskCover does not cover loss or damage of personal belongings (including vehicles). Volunteer workers, who, with the approval of the principal, have a supervisory role during an excursion, are covered during performance of duties by personal accident insurance and public liability insurance. There is no insurance for loss or damage to their personal property.
12. Excursions are not to be conducted in the Wittenoom town-ship or locations near the Wittenoom mining area. Wittenoom is not to be used as a base for excursions into the Karijini National Park.
